MEDICAL REVITALIZATION, INC

GE Dash 3000

Features:
- Automatically calculates a patient's probability of Acute Coronary Ischemia from 0 to 100%
- Shown to reduce the number of unnecessary admits to the CCU, while helping to confirm appropriate admissions
- Use retrospectively or for real-time clinical decision support
- Predictive reliability dependent on 12-lead quality; our 12SL® remains the industry's most thorough 12-lead analysis for sensitivity and specificity

Specifications:
- Height: 10.25"
- Width: 11"
- Depth: 8"
- Weight: 11.20lbs
